Dealer in—

## QUEENSWARE, CHINA, TINWARE.

Glass, Cutlery, Notions, etc. No. 45 Market Street, East side, between Second and Third, a216m MAYSVILLE, KY.

## THE CABINET ROW.

Chandler and Frelinghuysen Crossing Swords.

The Naval Department Undertaking to Conduct the Entire Government—President Arthur Shoulders The Responsibility and Acts as Peace-maker.

WASHINGTON, Oct. 24.—An air of truth is given to the story about trouble in the Cabinet. The President having assumed the entire responsibility for the cause of the alleged grievance, the complaining members of the Cabinet have only to yield gracefully or resign. The half of what has happened has not been told, and probably all will never be known, except by the President and his advisers. For some time, it is said, the Secretary of State has felt jealous of the influence and activity of the Secretary of the Navy, as well as resentful on account of his unwarranted interference in matters which belong to the State Department. It is said, too, that in like manner the Secretary of the Navy has inspired the same feelings in the bosom of the Secretary of the Treasury. The jealousies and resentments unfortunately culminated on the same day, and resulted in an explosion which the word "disagreeable" inadequately describes.

When the Cabinet had reassembled Frelinghuysen's precautions and warnings had been of no avail. Not only had an officer of the navy negotiated a treaty with Korea, but when the Korean Embassy unfurled its flag in Washington, recently, in his absence, two naval officers had, by direction of the head of their department, been temporarily attached to the suite of the Embassy. Moreover, another officer of the navy had just published, under the official auspices of that department, a descriptive sketch of Korea and the Koreans. When Frelinghuysen concluded, with the remark that he would submit to no further interference by the head of another department, the President showed signs of anxiety. The Secretary of the Treasury arose and said that, while he was not familiar with the merits of the controversy about Korean matters, he was impelled to remark that for some time he had felt that there was unwarranted interference with matters that properly belonged to his department. As the head of the most important branch of the public service, he must say that he regarded the conduct of the navy, since Chandler took charge, as highly reprehensible. "Charged as I am, continued Judge Folger, 'with the duty of collecting money for the support of all the departments, I have seen with unfeigned regret the accounts of the damage inflicted upon the vessels of our merchant marine.' After a pause, during which the President shifted uneasily in his seat, Judge Folger remarked that it has always seemed to him an anomaly that the reports of consuls—who are after all more legitimately treasury officers than they are officers of the State department—in regard to commerce and manufactures should be issued and published by the State department. He thought the heads of that department should confine their efforts to their sphere—diplomacy—and leave the treasury to manage its own affairs without interference. The President seemed more uneasy and perplexed than ever, and turned to the Postmaster General and Attorney General, with whom he held a whispered conference, which was interrupted by the Secretary of War. He said he had been silent respecting what he regarded as unwarranted interference, by the Secretaries of the Interior and of the Navy in matters which belonged solely to the military arm of the Government. At this point Chandler and Teller both struck into the discussion at the same instant, and it waxed so warm that the President was compelled to interfere and abruptly adjourn the meeting, which he did with the remark that he assumed the entire responsibility, and if any gentleman didn't like it he could resign.

## ABOUT WHISKY.

What Commissioner Baum Thinks Congress Should Do.

WASHINGTON, D. C., Oct. 24.—Ex-Commissioner Baum said to a reporter this morning in reply some questions, that his clients, the whisky men, desired that Congress should take definite action in bonded tax matter immediately upon reassembling. Mr. Baum said that the distillery men will not ask an extension upon goods including that to be made in the future, but will emphatically insist that an extension be granted on the whisky now in warehouses and to come out within the next two years. He said that the non-action of the last Congress caused some very bad failures, but they would be insignificant compared with what is to come without some help is given the whisky interest of the country. There are, he said, seventy million gallons to come out of bond during the next two years, which means \$93,000,000 of tax must be paid, and, of course the market can not receive this large lot in that time.

## The Pope and the European Governments.

LONDON, Oct. 24.—Cardinal Manning, in conversation yesterday, expressed his belief that anything like diplomatic intercourse between England and the Vatican was extremely improbable, and he was disposed to regard it as impossible. He did not, however, despair of a change in the attitude both of France and Germany, antagonistic to the Holy See as they were. The Pope had shown a willingness to meet Bismarck's advances and those of Germany so far as he could do so consistently with the principles of the Church, which had been liberally construed. Cardinal Manning believes that Bismarck is more inclined to be friendly to Rome than heretofore, and he will accede to any measures which may result in a peaceful solution of their differences.

## SPORTING MATTERS.

### BRIGHTON BEACH RACES.

BRIGHTON BEACH, N. Y., Oct. 24.—One of the most desolate days ever seen on any track greeted the few spectators who witnessed the events on the programme. The first race, three-quarter mile, for three year olds, won by Blue Rebel in 1:19; Blue String second, Shelby Barnes third. Mutuals paid \$31.30. Second race, with same conditions, won by Lena in 1:18; Holy Rood second, Correct third. Mutuals paid \$13.90. The third race, five furlongs for all ages, won by Orange Blossom in 1:04; Boulotte second, Roy S. Cluke third. Mutuals paid \$7.80. The fourth race, mile and furlong for all ages, won by Babcock in 2:01, Brunswick second, Vibrator third. Mutuals paid \$14.75. The fifth race, mile and a quarter, handicap for all ages, won by Exeter in 2:13; Marshall second, Ruth third. Mutuals paid \$22.70.

### RACES AT MEMPHIS.

MEMPHIS, Tenn., Oct. 24.—This was the second day of the Memphis Jockey Club meeting and the attendance was almost as large as that of yesterday. The principal event was the Gaston Hotel stakes, a dash of a mile and a furlong for three old fillies which was won by Olivette in 2:07; Mayonnaise second. The second race, 1/2 mile, was won by Lady Lond in 1:20; Manitoba second. The third race, 1/2 mile, was won by Followplay, 1:17; Mammoth second, Lizzie third. The last event was a mile heat race, which was won by Mediator in two straight heats 1:46 and 1:48. In the first heat Effie was second and Bell third. In the third heat Bronero was second and Aluinde third.

### CHICAGO DRIVING PARK.

CHICAGO, Ill., Oct. 24.—There was cheerless sport at the Driving Park notwithstanding the presence of 6,000 people. The first race was a trot between Monroe Chief, Fanny Witherspoon and Wilson, the latter winning the first heat in 2:23. Monroe Chief took the second heat in 2:24. Wilson won again in the third heat; time 2:22. The fourth heat resulted: Monroe Chief first, Witherspoon second, Wilson third. Monroe Chief took the fifth heat and the race in 2:24; Wilson second and the mare third. Jay-Eye-See made two trial heats to beat his record of 2:10 for \$5,000. Time 2:27, 2:18. Johnson paced three one mile heats in 2:14, 2:15 and 2:15, very fast time considering the condition of the track.

### MYSTIC PARK MEETING.

BOSTON, Mass., Oct. 24.—The fall meeting at Mystic Park opened with good attendance and two races. The three minute class purse, \$400, had seven starters. Blackstone won the first heat in 2:35 and Emerald the next three in 2:34, 2:35, and 2:37. Blackstone was second in the race, Nellie C. third. The 2:25 class, \$400, had seven starters, and was won by Pilot Knox in three straight heats; time 2:24, 2:25, and 2:25; Alleghany Boy, second; Valley Boy, third.

## BROOKLYN WIFE MURDER.

What the Dying Woman Says of the Husband's Guilt.

BROOKLYN, N. Y., Oct. 24.—Mrs. Mary J. Young, who was shot by her husband, Thomas J. Young, at the residence of her mother, Mrs. Cole, has just died from the effects of her wound. Mrs. Young, in her dying statement, protested that her husband had frequently threatened to take her life and was only waiting for an opportunity to get her alone, so that he could shoot her and claim it was an accident. Young admits that he shot his wife, but says the pistol went off accidentally, that he was only going to take it out to frighten her. Mrs. Cole was present when the shooting took place, and says she believes Young went to her house for the purpose of shooting his wife, but refuses to say more.

## BLOODY ROW.

Italians and Other Laborers Engage in a Pitched Battle.

YOUNGSCOWS, O., Oct. 24.—While 100 Italians were grading some land for the Pittsburgh, Cleveland and Toledo Railroad here yesterday, they were assaulted by as many laborers employed by the Eagle Furnace Company, which claimed the land. The attacking party bore red-hot tongs, iron bars and clubs. A fierce hand-to-hand fight ensued, in which the Italians were defeated. Several were seriously beaten and a number knocked insensible and badly cut, two fatally. The tools of the graders were thrown into the river or carried away in triumph.

## POSTAL EXPENSES.

Report of the Second Assistant Postmaster General.

WASHINGTON, D. C., Oct. 24.—The report of the Second Assistant Postmaster General Elmer, for the fiscal year ended June 30, 1883, made to-day to the Postmaster General, shows the cost on star, steamboat, and railroad routes to be \$19,234,899, an increase over last fiscal year of \$353,849. The increase in mileage for 1883, over 1880, is 1,927,787 miles. The railroad service cost \$13,887,810; the steamboat service, \$307,621; star service, \$4,739,378. The estimate for railroad service for 1885, is \$13,735,216.

## Triple Murder and Suicide.

PITTSBURGH, Pa., Oct. 24.—A special from Newcomerstown, Ohio, says: Albert Frizer, living ten miles northeast of that town, killed his wife and three children last night and then committed suicide.

LATER.—NEWCOMERSTOWN, O. Oct. 24.—There is great excitement in our little town. A farmer has just arrived, bringing with him news of a most horrible crime which was committed about ten miles northeast of this place. All that is known at the present time is that Albert Frizer murdered his wife and three children, and then terminated the fearful tragedy by putting an end to his own miserable existence. Many people have left for the scene of the crime, and full particulars will be telegraphed as soon as possible.

## IRON AND STEEL.

Review of the Trade From a Pittsburgh Standpoint.

No Indications of a Scarcity of Work or Orders—The General Situation Encouraging and the Outlook Hopeful.

PITTSBURGH, Oct. 24.—A review of the steel and iron trade yesterday shows no indications of a scarcity of work or of orders for some months to come. The quality of finished iron now in demand is chiefly of the heavier grades, which is seen in mills where heavy and light iron is turned out. The demand for tank iron has fallen off to almost nothing. Sheet iron commands ready sales but still there are some mills not running any. A great number of our mills are now running out pipe iron for tube works in this city and other places. The hoop iron business may not be what the manufacturer would like to have it, but if the trade can be judged from the work turned out it certainly must be first-class. There are three mills in this city which turn out daily over two hundred tons of hoop iron. Some mills are making nothing but light iron and if these would work their puddlers, double-turn, they could not consume all the muck iron with their present finishing capacity. These manufacturers do not feel disposed to make a supply ahead at the price at which muck iron is now selling, as there would be a very small margin. The finished stock in warehouses here, and, as reported at many other places, is not large, and it is about the same with metal. Manufacturers buy only enough to run them a short time. Some have scarcely a week's supply ahead. The Isabella Blast Furnace No. 2 has again been lighted. It was blown out on the 26th of February last year for the purpose of being relined, but has been standing idle for more than a year owing to the dullness in the metal trade and large accumulation of stock on hand. There are now furnaces casting daily about 1,000 tons, which is a little more than half the amount consumed in the mills as they are now running.

## ACCUSED OF FRAUD.

A Bad Showing for a Heavy New York Firm.

NEW YORK, Oct. 24.—It was learned at the Mayor's office yesterday that Mayor Isaac W. Tausig, of Jersey City, and his partner, Moritz Hammerschlag, in the firm of Tausig & Hammerschlag, rock candy manufacturers, of No. 50 Dey street, who failed in September, were recently arrested and subsequently released on \$9,000 bail on a warrant issued by Judge Barrett, of the Supreme Court, in a suit by the Havemeyer Sugar Refining Company for alleged fraud and deceit in contracting for the purchase and sale of goods. The affidavits were based on a statement made by Mr. Tausig to Bradstreet's Mercantile Agency about April 27 last, in which he claimed, as per inventory of April 1, the firm's assets were \$214,431, and indebtedness \$91,600. The other affidavit is by Mr. Calhoun, the expert employed by the committee of creditors to examine the books of the firm. He avers that it appears from the books that on April 1 the liabilities were \$177,005 and assets \$3,185, an excess of liabilities of \$83,574. The Judge took the papers and reserved his decision in the matter of vacating the order of arrest. Barrick & Co., the assignees, said that the firm had not yet been able to make a settlement with their creditors.

## RAILWAY MAIL SERVICE.

What the Investigating Committee Will Report.

WASHINGTON, Oct. 24.—The committee consisting of Second Assistant Postmaster General Elmer, Railway Mail Superintendent Thompson and Mr. Slater, Chief of the Railway Division, Second Assistant's office, recently appointed by the Postmaster General to readjust the railway mail service of the country, have about completed their report. It is understood that the committee will recommend that the Postoffice Department assume all expense of the delivering to the postoffices within forty rods of intermediate railroad stations, and to postoffices within one mile of terminal points. At present this expense is borne by the railroad companies. If the recommendation said to be contemplated by the committee should be adopted by Congress and become a law, it will add, in the estimation of persons connected with the Department, about one million dollars to the present cost of transporting mails. The reason assigned for this proposed change is greater security to the mails, as it will keep them at all times in the possession of postoffice employees.

## WANT ROBERT'S MONEY.

The Lincoln Monument Association's Idea of a Graceful Thing.

SPRINGFIELD, Ill., Oct. 24.—The Lincoln Monument Association yesterday announced the completion of the work, and all that remains to be done is to provide for the future care of the monument erected to the memory of the great emancipator. There is in the Treasury some \$8,000. This sum, or the revenue from it, is insufficient to meet the expense of keeping the monument in repair and open for visitors. Mrs. Lincoln at her death left over \$30,000 in Government bonds to the present Secretary of War. The Association consider it would be a graceful act on the part of Mr. Lincoln to set apart enough of them, which added to the \$8,000 would provide an annual revenue for the keeping up of the tomb of President Lincoln, thus relieving the State of the odium cast upon it by those who regard the twenty-five-cent fee as equivalent to the price of a side-show or museum.

## IS IT CHARLIE ROSS?

The Story Told by the Maine Claimant to the Portland Authorities.

PORTLAND, Me., Oct. 24.—The young man who has created a sensation here by claiming to be Charlie Ross, was before Judge Gould, of the Municipal Court, and told him his story and inquired if the Judge could tell the name of the father of Charlie Ross. He thought it might be Edwin. When told that Mrs. Ross was dead he seemed much affected. All details of the route taken by the men who removed him from home seem fresh in his mind, and he insists that the steamer Forest City is the boat in which he came here first. He says that Jesse James and others took him to Brazil in a schooner that was in fact a pirate, they stealing all the time while on the way. The young man says he fell sick, and, while in that condition, heard James express regret at having stolen him. He heard James speak of him as Charlie Ross while in Brazil. He says that James stole a young Italian girl with whom he, Ross, escaped to the United States. The girl is now at work in a shoe factory in Lawrence, Mass. The young man has the following birthmarks. Two black spots on shoulder and a mole on right breast. He claims that Frank James knows about his brother's connection with the case, and a letter in his behalf has been sent to James, giving all the facts and urging him to deal justly by the boy.

## The New Telegraph Companies.

NEW YORK, Oct. 24.—The Bankers' and Merchants' Telegraph Company took possession of the building at 187 Broadway, formerly occupied by the American Rapid Company. The lower floors have been handsomely fitted up and will be occupied by the Executive officers. The lines of the Rapid and Southern Companies are concentrated together with the Bankers and Merchants' wire in one general operating room, while additional wires are being constructed in all directions. The mileage of the wires controlled by the Bankers and Merchants' Company is now little less than that of the Mutual Union Company's system, and when the facilities contracted for are finished, the system will be larger than that of any other opposition Company ever organized.

## He Was Jealous.

PHILADELPHIA, Oct. 24.—Catherine Rittenhouse, proprietor of a house of ill-repute, was shot last evening by George Z. Sawyer, who has been living with her for two years. After firing three shots at the women, which took effect in her side and back, Sawyer shot himself in the head, cut two gashes in his throat and thrust a knife into his breast with the intention of committing suicide. He was arrested and taken to the Police Station, where his wounds were dressed, and which were all slight. He was locked up. The woman's injuries are of a fatal character. The act is supposed to have been caused by jealousy.

## FIRING THEIR SYNAGOGUE.

Jews Burn Their House of Worship for the Insurance Money.

LONDON, Oct. 24.—The trial of the Jews charged with setting fire to their synagogue at Neusettin for the purpose of obtaining the insurance on it was concluded yesterday. All the accused were convicted of arson in various degrees. Esheim, who appeared to be the ring-leader, was sentenced to four years imprisonment and the others for shorter terms.

## Defending Parnell.

LONDON, Oct. 24.—Sir Harding E. Gifford, M. P., in a speech made at Aynick, severely condemned the policy of the Government toward the Home Rulers. Hundreds of men, he said, had been imprisoned at the caprice of the Ministry upon the most vague suspicion of complicity in seditious acts, only to be discharged at the will of these same Ministers without trial or explanation and with no hope of redress or remuneration for their treatment. "If Mr. Parnell is guilty," said he, "he should be promptly tried for the acts and utterances charged against him. If he is not guilty, no time should be lost in offering ample apology to the man who has been so unwarrantably traduced."

## Grand Army Day.

PHILADELPHIA, Oct. 24.—Wednesday is Grand Army Day, the seventeenth anniversary of the organization of G. A. R. in this State, and it will be celebrated in this city in a manner most becoming to the order. The feature of the day will be a grand street parade, in which all the Grand Army Posts in this city will participate, together with visiting posts from the Department of New York, New Jersey, Delaware and Maryland. Elaborate preparations have been made to render the celebration the most successful one ever held in this State.

## Land Office Frauds.

WASHINGTON, Oct. 24.—The Commissioner of the General Land Office has decided that he will not furnish certified copies of reports of special agents investigating land frauds prior to the action of the Department upon the recommendations of the report. It was found that the information furnished by these reports has frequently been wanted for improper purposes, such as shielding the parties implicated.

## Official Returns of the Ohio Election

COLUMBUS, Ohio, Oct. 24.—The full official returns of the late Ohio election furnished by Secretary Newman are as follows: Hoadly, 359,593; Foraker, 347,064; Schumacker, 8,361; Jenkins, 2,785; total vote, 721,474. Hoadly's majority, 1,303. The majority for the Judicial Amendment was 33,413. The Second Amendment fell short of a majority by 39,345. The regulation amendment received 98,050 votes.
